Price Reduction

- When notifying a complete order for *first publications/product changes by early deadline*, prices for first publications are reduced from 6.00 Euro to 5.00 Euro and for changes of a PZN's product data from 3.00 Euro to 2.50 Euro (cf. [IFA Publication Calendar](#)).
- When notifying more than six first publications/product changes within one billing period, the price per PZN is further deducted. This applies to both regular and reduced prices of IFA services. The price is calculated according to the following formula: price x (number of first publications/product changes x 1.5)^{0.8}.

The annual fee and all prices for services according to IFA guidelines are subject to German VAT. First publications and product changes are invoiced at the end of the quarter. Invoices are payable within two weeks after receipt nett without further deductions.
